New Kazakh presidential assistants, domestic policy head appointed

By Nazira Kozhanova

NUR-SULTAN – Aila Bayseva and Muslim Ashimbayev were appointed as new presidential assistants March 30, respectively, as assistants to Kazakh President Kassym-Jomart Tokayev. Gani Nygymbetov was appointed as deputy chairman of Kazakhstan’s Ministry of Information and Communications. Bayseva has a PhD in philosophy and is the head of the Presidential Administration of the Almaty Region. Ashimbayev is a deputy chairman of the Ministry of Information and Communications, and a PhD in telecommunications.

The Kazakh National Olympic Committee received an invitation to the Tokyo 2020 Olympics, announced by President Tokayev. The Games will be held Aug. 8 in the Tokyo 2020 Olympic Stadium, according to olympic.kz.

The country’s team, currently ranked 36th in the world, includes swimmer Dmitry Balandin (100m, 200m and 400m freestyle), volleyball player Yegorov Nikolay, open water swimmer Yegorov Denis, and men’s classic archery team.

More than 11,000 athletes from 206 countries are expected to take part in the competition.

A representative committee for the Tokyo 2020 Olympic Games will be formed for the Almaty Region, reported Kazakhstan Business.

Kazakhstan is one of the 36 countries to receive an invitation to the Olympics and is one of the four non-European countries to receive the invitation. Kazakhstan will participate in wrestling, gymnastics, boxing, weightlifting, badminton, table tennis, shooting, archery, triathlon, sailing, and handball.

The committee is expected to be formed by August 15 to prepare for the games.

Eurasian Intergovernmental Council discusses integration, status of current agreements

AKA UNIVERSITY KAZAKHSTAN - A delegation recently visited Iraq to explore cooperation in the fields of energy, agriculture, logistics, telecommunications, information technology, robotics and information security. The delegation, headed by Deputy Foreign Minister Yerlan Baidibekov, met with Iraqi Foreign Minister Mohammed Alhakim, Chiyoda Tebriz, Helsinki Convention Commissioner, JOCGO, Kiyakggyp, according to the Kazakh MFA.

The prime minister of Kazakhstan, Kassym-Jomart Tokayev, accompanied by Foreign Minister Nurlan Idrissov and Defense Minister Serikzhan Batbayev, attended the first meeting of the IEO council, which consists of the Eurasian Intergovernmental Council (EIC), the Eurasian Economic Commission (EEC), the Eurasian Patent Office (EPO) and the Eurasian Financial Centre (AIFC). The meeting took place on the sidelines of the Astana International Economics Forum (AIEF).

Nurlan Idrissov has highlighted the importance of the Astana International Economics Forum in the region. Idrissov noted that the Astana International Economics Forum is a platform for dialogue and cooperation on key issues, including the development of the Astana International Financial Centre (AIFC).

Guarantor states of Syrian talks in Kazakh capital reaffirm commitment to eliminating terrorist groups in Syria

In an official statement, the guarantor states of the Astana Process reaffirmed their commitment to the territorial integrity and sovereignty of Syria, as well as the political process facilitated by the United Nations. They also emphasized their support for the efforts of the Syrian government to combat terrorism and stabilize the country.

The joint statement underlined the importance of a political solution to the Syrian conflict, stressing the need for a comprehensive, inclusive and credible political process. The guarantor states expressed their commitment to implement all aspects of the Astana Process and the Minsk Agreement, including the establishment of a constitutional committee and the organization of presidential elections.

Kazakhstan urges United States, Russia to resolve INF Treaty issues

By Dibek flaşkova

The United States and Russia have been involved in a long-standing dispute over the Intermediate-Range Nuclear Forces (INF) Treaty. The treaty, signed in 1987 by the United States and the Soviet Union, aimed to eliminate medium and short-range missiles. The treaty was seen as a key pillar of arms control and stability in Europe.

However, in 2019, the United States announced that it would withdraw from the INF Treaty, citing alleged violations by Russia. The move was met with strong opposition from the European Union and other countries, as well as from states within the INF Treaty framework.

In his address at the 74th United Nations General Assembly, President Kassym-Jomart Tokayev emphasized the need for a diplomatic solution to the INF Treaty issue. He called on both sides to refrain from采取 any actions that could undermine the treaty.
Gross output in farming grows 10.5 percent in six months

By Aisoltai Sattabulova

Kazakhstan’s monthly inflation rate was 0.2 percent in July, said National Bank Chairman Yerbolat Dossayev at the same meeting.

The agricultural inflation rate is 3.6 percent as of July, which is within the government’s target of 4.6 percent.

The ministry noted the seasonal declines in prices for fruits and vegetables, which account for 12 percent of the consumer price index in the summer season of the period were not observed.

State budget revenue growth rose 24.6 percent in January-July, First Vice-Minister of Finance Yermek Babanov told the government.

Tax revenue increased 5.5 percent, and deposits of public sector entities increased 8.5 percent in January-July. Deputy Prime Minister Askar Mamin noted that the growth rate was 4.1 percent in this time period.

Approximately 77.5 thousand agricultural enterprises in Kazakhstan in January-July, said Minister of Industry and Investment Development檐

At the National Chamber of Commerce and Industry’s annual meeting on August 15, Tokayev noted that the government’s investment attractiveness reached its peak, which has allowed the country to achieve the highest level of foreign investment since independence.

The government’s investment attractiveness index in January-July reached 5.5 points higher than the corresponding period of 2018.

In 2019, Kazakhstan became the 12th largest foreign direct investment destination in the world, according to the World Bank’s Doing Business 2020 report.

Agriculture is one of the main industries in the country, with its contribution to the GDP reaching 10.5 percent in January-July 2019.

The growth in the agricultural sector is mainly due to an increase in the production of grain and livestock products, as well as an increase in the number of agricultural enterprises.

In January-July, the number of agricultural enterprises increased by 4.2 percent compared to the same period in 2018.

The AIFC FinTech Hub participates in Startup Nation festival in Thailand

By Yerbolat Uatkhanov

NUR-SULTAN – FinTech Hub, which is part of the Astana International Financial Centre (AIFC), participated in the recent Startup Nation festival in Bangkok, Thailand. FinTech Hub presented three startups, which became finalists in a global Visa programme representing financial technology (fintech) startups.

“The values of such an event are the exchange of experiences, coordination of actions, the opportunity to tell the world about successful initiatives and meetings with experts who can give good advice,” said Rahmet App CEO and partner of Choochefamily holding Nurban Rakhmet. “We are delighted to participate in the biggest startup festival in the ASEAN (Association of Southeast Asian Nations) region. The AIFC will strive to further strengthen its relationship with the National Innovation Agency of Thailand for the benefit of our fintech startups and collaborators and strengthen and develop business relations between South East Asia and Kazakhstan,” said AIFC Chief Development Officer

The event was organized by the National Innovation Agency of Thailand and included conferences and exhibitions framing startup development in a wide range of the areas of the festival. The event featured the best startups and investors from various countries, including Kazakhstan.

FinTech Hub presented three startups, which became finalists in a global Visa programme representing financial technology (fintech) startups. The largest event of its kind in ASEAN, it featured more than 1,000 visitors and more than 400 participating startups attended.

“Kazakhstan will develop a model solution to independently assess its road quality, said Anti-bile application to independently assess its road quality, said Anti-bile application to independently assess its road quality, said Anti-bile application to independently assess its road quality. We talk a lot about road quality, the control and monitoring of road quality. The control and monitoring of road quality is absolutely amazing. We have a high standard is absolutely amazing. We have a high standard is absolutely amazing.

EBRD projects in Kazakhstan focus on small business, women's entrepreneurship and investment environment

By Yerbolat Uatkhanov

The EBRD is one of the main financial institutions in Kazakhstan. A major part of the bank's activities in the country is focused on supporting the development of the private sector, particularly small and medium-sized enterprises (SMEs). The EBRD has been involved in a number of projects aimed at improving the business environment and increasing access to finance for SMEs in Kazakhstan. The bank has supported initiatives to strengthen the legal framework for SMEs, improve access to credit, and increase awareness of business opportunities.

The EBRD's projects in Kazakhstan have included the following:

1. Strengthening the legal framework for SMEs: The EBRD has supported initiatives to strengthen the legal framework for SMEs, including the development of a new law on SMEs and the establishment of a new regulatory body. The bank has also supported the development of a new regulatory body.

2. Improving access to credit: The EBRD has supported initiatives to improve access to credit for SMEs, including the development of a new credit guarantee scheme and the creation of a new credit union.

3. Increasing awareness of business opportunities: The EBRD has supported initiatives to increase awareness of business opportunities for SMEs, including the development of a new business plan and the creation of a new business incubator.

The EBRD's projects in Kazakhstan have been focused on improving the business environment for SMEs and increasing access to finance for entrepreneurs.

The EBRD's projects in Kazakhstan have been focused on improving the business environment for SMEs and increasing access to finance for entrepreneurs. The EBRD is working to help SMEs in Kazakhstan grow and succeed, and is committed to supporting the development of the country's private sector.
W

ith the Ruhani Zhanga initiative launched by Kazakhstan’s first President, Nursultan Nazarbayev, in 2015, it was recognised as a courageous step. It came, all the more so, as many other countries seemed, as now, to be looking towards and often backwards.

Given this background, it takes boldness and confidence to buck with a widespread trend. But that is exactly what the Ruhani Zhangar Initiative – Kazakhstan’s identity programme – did with its public announcement that Kazakhstan intended to modernise not just its economy but also its identity – and would do it by continuing to engage with the wider world.

The importance attached to this initiative was reinforced when President Kassym-Jomart To- kayev, in his inaugural address, stated that the country’s history, culture and tradition – and share it with the wider world.

This commitment has already led to increased efforts to preserve and restore religious and historical monuments as well as the capital’s Iconic Mosque. Destroyed during the war, and recently reconstructed, the 19th century mosque is part of the country’s Spiritual and Cultural Initiative.

In Astana, too, there are plans for new museums, including around the fascinating Boraldai Saka burial mound. At the same time, the old city’s his- torical buildings and architecture are getting the investment they deserve.

We are seeing the same ef-forts across the country. Cultural, religious and national sites are being restored and their relevance and importance to Kazakhstan and global heritage celebrated. After all, Kazakhstan’s position linking the wider world, Astana and the Middle East Meets what happened here often had a profound impact on our lands.

This impact – and the rich and fascinating history in itself – is one of the reasons why Kazakhstan is finding itself increasingly a tourist destination. As part of Ruhani Zhangar, new tourist centres are being established. Astana, for example, is Astana, the capital of Kazakhstan, has eighteen new green plants, including in the Park and Volkov. It is, now as well as Astana.

While the Ruhani Zhangar Initiative has given new priority to the country’s history, it is not, as we have said before, backward-looking or narrow in its approach. It places it within the context of a modern, dynamic and evolving country and people.

The UN’s 163-nation initiative tells this story through the lives of 163 different people, young and old. New, global audiences, too, are being introduced to talented contemporary Kazakh musicians, writers and artists. Collections of Modern Kazakhstan, for example, are being prepared for publication in the main world languages.

Importantly, too, under its umbrella, there is an emphasis on maximising the adaptability and drive of our citizens to equip them for the challenges of the future. There is a strong focus on education, whether it is foreign language proficiency or computer literacy.

It is no surprise minds and borders are open, not closed. The gradual move to the Latin alphabet, which will bring the Kazakhstan into the group of languages that account for about 15 percent of business communications in the world, is a symbol of this readiness to change. It is self- termed by its language professionals into the Latin alphabet.

Overall, nearly $320 billion in FDIs has been generated in the Kazakh economy over the years of transition. The cumulative volume of foreign investments came in 2021, at $37.8 billion, followed by $26.5 billion in 2011 and less than $18 billion in 2006.

The gross FDI in the first six months of 2022 is estimated at $6 billion, compared to $6.7 billion last year for the same period.

The share of the FDI in the country’s capital formation is 14 percent, an increase by 4 percentage points. The Kazakh government plans to bring the FDI to 18 percent by 2022.

Twenty-seven projects worth $3.1 billion were launched in 2018 in Kazakhstan. Most of the projects are in the Almaty Region, followed by the Karaganda Region and Nur-Sultan.

**Hilton sees expansion opportunities in Central Asia, plans eco-friendly future**

By Zhanna Shabalkina

Hilton, the leading global hospitality company, is well-positioned to capture a significant share of the potential within Central Asia, due to the region’s rapid infrastructure development and expanding consumer base, the company said.

"In each of our existing markets where we are already well established, we are actively assessing the opportunity to increase our footprint," said John Wood, president and chief executive officer of Hilton.

"In recent years, we have expanded our footprint in the region with the opening of a number of new hotels, including the recently opened Hilton Astana in Kazakhstan and the Hilton Almaty in Kazakhstan," he said.

The expansion in Central Asia is part of Hilton’s global growth strategy, which includes the opening of new hotels in key markets around the world. The company has reported strong growth in the region, with the number of客房 rooms in operation increasing by 50% since 2016.

"Our focus is on providing guests with exceptional service and amenities in all of our properties," Wood said. "We are committed to delivering a consistently high level of service across our portfolio of hotels in the region, which will enable us to capture the growing demand for quality accommodations in Central Asia."

Hilton has a strong presence in the region, with 13 properties currently operating in six countries, including Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan, and Turkmenistan. The company is actively looking to expand its footprint in the region, with plans to open multiple new hotels in the coming years.

"We are well positioned to capture the significant growth opportunities in Central Asia, and we believe that our strong brand recognition and consistent delivery of superior guest experiences will enable us to succeed in this dynamic market," Wood said. "We look forward to continuing our successful growth in the region and expanding our footprint to meet the growing demand for quality accommodations in Central Asia."
Kazakhgaliyev

By Aidana Yergaliyeva

Baktygery's participation in the competition opened many doors. He subsequently received a mentorship invitation from Fuat Mansurov, chief conductor and artistic director of the Tartarstan Symphony Orchestra; conductor of the Bolshoi Theatre of Russia; people's artist of Kazakhstan, Russia and Tatarstan; academician and chief conductor from Fuat Mansurov, mentorship invitation participation in my career to become a professional works, “he said. As the chief conductor and artistic director of the Astana Academic Philharmonic symphony orchestra in Astana (now Nur-Sultan), he led the Astana Academic Philharmonic symphony orchestra in Astana (now Nur-Sultan) and the Astana National Philharmonic symphony orchestra. Among his accomplishments are the study of the Turkish language, the education and customs as well as the study of the Turkish traditions and customs. The centre’s members take part in cultural events and city events. The centre also includes the Bolshoi Theatre; Kazakh theatre members contribute to social and economic development of the country, education, healthcare and social development. Approximately 1,500 people of Turkish descent live in the region, all of which are the centre’s students. Kazakhstan is home to the Karmakhan district, Bakter and Kyrgyz.

Young people are studying the Turkish language. Representatives of the Turkish ethnicity are studying in the Kazakh language in higher education institutions. (They have won the state language competitions at the national level and city levels),” said Geidarova. The centre also includes the study of the Turkish traditions and customs. Approximately 1,500 people of Turkish descent live in the region, all of which are the centre’s students. Kazakhstan is home to the Karmakhan district, Bakter and Kyrgyz.

Hilton sees expansion opportunities in Central Asia, plans eco-friendly future

Continued from Page B1

The company also helps develop human capital and support youth by work with universities and federal government institutions with Turkish population students. The company has established opportunities for young people to enter the hotel business. The first step in this direction, which is very useful for young people, is the academic preparation to work in the hotel business, the task of which is to develop the skills of the future hotel business employees. This is only as good as the talent that we recruit. People are absolutely at the heart of everything we do,” he said.

Hilton also plans to balance its environmental footprint by 2030 and focus on energy efficiency, including water saving, the emission of carbon and the elimination of plastic. “As a hotel brand, we are at the heart of our business. And, therefore, we spend every moment thinking about how we can recruit those new employees who have career opportunities. We are officially as of this year the mother of two among the best places to work in the world. We are only as good as the talent that we recruit. People are absolutely at the heart of everything we do,” he said.

Vincent also noted the company observes the golden age of travel now. “We have seen that over the course of the last five or six years we have seen the fact that the world is going through some challenging times both geopolitically and economically. We’re still seeing sustained growth in our pipelines of new locations. Our brands are very strong in the way that they perform. And the economics of running hotels are still very attractive to investors,” he said.

Vincent also noted the company is working to continue the vision of its founder Conrad Hilton to spread the light and warmth of hospitality. “We are doing that in a meaningful way on a global basis. Hiltons have an amazing impact on the places where we are invited to the Hilton effect. Over the last century, we have employed 10 million team members, served more than 7 billion guests and had a $1 trillion economic impact. It is an amazing fact. We want to leave a strong legacy in the next hundred years as our founder Conrad Hilton first intended,” he said.
Astana Ballet theatre to host presentation of modern Russian literature

By Diana Usakova

NUR-SULTAN – The Astana Ballet theatre will present Sept. 19 Russian actor Konstantin Khabenskiy and singer Alexander Tsypkin to Astana on their tour of Kazakhstan and Europe.

The seventh theatrical season will start with Mukan Tuleyev’s “Eugene Onegin,” Igor Stravinsky’s “The Firebird,” Tchaikovsky’s “The Nutcracker” and works by Giovanni Bottesini, Tchaikovsky, Puccini and Rossini.

The Astana Opera orchestra music and international competition winner Almas Baigozhin, pianist Alexander Tsypkin, Soviet composer A. D. Khavkina, the Samarkand Symphony Orchestra, and the Astana State Youth Symphony Orchestra will perform in Astana.

In Kazakhstan, the Astana Opera and Ballet will continue to work on the seventh theatrical season, which will be titled “Bass Was Singing” and will feature the works of Gioachino Rossini, Giacomo Puccini, Francesco Tosti and others.

The Astana Opera and Ballet will hold the seventh theatrical season at the Karazhartas burial ground in Karaganda Region.

The seventh theatrical season will start with Mukan Tuleyev’s “Eugene Onegin,” Igor Stravinsky’s “The Firebird,” Tchaikovsky’s “The Nutcracker” and works by Giovanni Bottesini, Tchaikovsky, Puccini and Rossini.

Western classical music is one of the main directions in Astana’s cultural cooperation with Europe.

90 percent of repairs in Arys are completed

By Dildak Zhasayev
NUR-SULTAN — Ninety per- cent of repairs and reconstruction are completed in Arys as of Aug. 2, after the town was heavily damaged on Aug. 24 by a large explo- sion at a munitions warehouse nearby, reports Primeminister.kz.

The explosion, which autho- rities have determined was caused by a violation of fire safety rules during the warehouse’s construc- tion and repair, and resulting from killing two soldiers and a civil- ian and caused widespread dem- age before it was contained by firefighters, reported the Kazakh Ministry of Defence and Ministry of Internal Affairs’ Emergency

Anticorruption Agency calls for improved automated vehicle weight measuring systems

By Nadya Kucherenko
NUR-SULTAN — Centre- for Quality of Road Assets, the National Oncology Research Centre and the Ministry of Ecology, Water and Masses have signed a memorandum of understanding to launch a new project in Arys.

The project is a part of the measures being implemented, a timely solution is to further the digitisation and road industry. To this respect, the pro- ject was selected at the Digital World’s Way Project project office. Adalikhe Zhanberdy, the executive director of the agency based on the National Construction Centre for Quality of Road Assets.

The project team initiated the crea- tion of an information system that will automate the process of roads’ quality evaluation conducted by mobile laboratories. The data col- lected in the information system will be made public,” said Zhanberdy.

The programme allows each citi- zen to access information about road conditions in a particular region.

Along with reducing corruption risks, the new system will significantly improve the quality of roads. An important feature in this issue is the eff- iciency of the transportation control systems,” she added.

National Oncology Research Centre construction to be completed by 2021

By Nadya Kucherenko
NUR-SULTAN — Construction of the National Oncology Research Centre is scheduled for completion by March 2021, reported prime minister- k. The centre is being built at the direction of First President of Ka- zakhstan’s city and regional centres, and is expected to improve the quality of medical services.

The final block includes norms to improve tax and customs adminis- 

New ministry will focus on environment, preventing poaching and managing water resources

By Nadya Kucherenko
NUR-SULTAN — The newly established Kazakh Ministry of Ecology, Water and Masses will focus on developing the department’s plans and strategies to implement the policies of the National Project – Green Economies.

One of the important objectives of the project is to improve the quality of water and soil resources, as well as to promote the integrated development of the country’s natural resources. The Ministry of Ecology, Water and Masses is expected to improve tax and customs adminis-

Taxes on property and land are not identical with a discrimin- atory charging of tax bases, but include land tax, house tax, and the corporation tax. Two taxes will be paid in a single amount.

To ensure the timely receipt of taxes to the fourth level budgets, the draft proposes postponing the pay- ment deadline, including transport taxes to the fourth level budget, the draft proposes postponing the pay- ment deadline, including transport 

The sixth block includes a capital investment in the national subsoil territories, with an emphasis on the utilisation of groundwater extracted with subsoil users. The draft also proposes introducing a ban to deducting the corporate income tax expenses in cases when the overall tally of the accident was more than 10.000.000 tenge (US$ 25,99) in any one tax base.

The fourth block focuses on improving the country’s medical centres with modern equipment, including Varian Medical Systems Interna- 

Vehicles and agricultural machinery purchased using commercial credits, Including credit lines, are exempted from import taxes and customs duties.

Teachers, waiters among most popular and in demand jobs in Kazakhstan

By Diana Vassilenko

NUR-SULTAN – The Kazakh Ministry of Information and Social Development will launch in September a programme allowing Kazakhstan’s retirees to receive course credit fees in full or in part in exchange for volunteer work.

“Due to its nature, the programme contradicts the age and limitations of the volunteers,” said President of the Ministry of Education and Science joint-stock company Financial Centre Askar Shynar.

For example, if a student teaches the Kazakh language for 20 hours, they would be allowed to skip certain Kazakh language lessons. The list of subjects from which a student can be exempted is still developing.

The Social Student Loan Project will be administered by the information and social development ministry and Kazakh Ministry of Education and Science. “The student must have a certificate and the location of the organisation where he wants to volunteer,” the official said.

For example, a student teaches the Kazakh language for 20 hours, they would be allowed to skip certain Kazakh language lessons. The list of subjects from which a student can be exempted is still developing.

The centre is visited by 480 elderly people and 560 children with disabilities, including 5,316 nurses and healing fitness therapy specialists, massage effectologists, speech therapists, and it has more than 2,000 qualified doctors, and it has more than 2,000 qualified doctors. The centre is visited by 480 elderly people and 560 children with disabilities, including 5,316 nurses and healing fitness therapy specialists, massage effectologists, speech therapists, and it has more than 2,000 qualified doctors, and it has more than 2,000 qualified doctors.

The programme is intended to encourage student volunteering in inclusive education, promote elderly care, and promote Kazakh language, literature, history, and computer science, organisation of community and sports clubs for children and working with children with delinquent behaviour. Students will be allowed to volunteer for one to three hours per week, retirement homes, leisure centres and other social institutions.

“Today, about 8.7 million people would be employed in the labour market. Many still have not found a job. We have created the Job Creation Map platform, where we can clearly map out where jobs are located in the regions, and we can adjust our plans accordingly,” said Zhilkabekov. Enbek state labour.

Enbek state programme adds new mechanisms for gaining employment

By Zhilkabekov

Students will be allowed to volunteer for one to three hours per week, retirement homes, leisure centres and other social institutions.

“Today, about 8.7 million people would be employed in the labour market. Many still have not found a job. We have created the Job Creation Map platform, where we can clearly map out where jobs are located in the regions, and we can adjust our plans accordingly,” said Zhilkabekov. Enbek state labour.

According to Shumeyko, when filling out a resume and posting opening announcements on the Enbek state programme allows one to promote professional training courses. The programme particularly targets socially vulnerable groups such as parents of multiple children, whereas the West Kazakhstan Region is in need of lawyers. The Mangystau Region needs nurses, paramedics, unskilled workers and security guards are in demand in all regions.

People can go to local employment centres and find information about which professions are in demand. Based on the demands, people seeking work can choose necessary professional training courses. The programme is intended to fill the gap and publicly accessibly.

Air Astana launches baggage allowance by number of pieces on international flights

By Yerbolat Uatkhanov
NUR-SULTAN – Air Astana changed in free checked baggage allowed at each outward and return flight as of Aug. 7. The weight to number of pieces. Beginning Aug. 7, passengers can check in a certain number of bags with a free bag weighing up to 23 kilograms in economy class and up to 32 kilograms in business class. Passengers may carry on an additional bag free of charge, however, since a security officer does not inspect bags before the flight.

Cabin baggage should weigh no more than eight kilograms for economy class, and business class passengers may carry two pieces.

Cheap fares without baggage are available only on international routes.

It is a privilege that we offer to our much-cherished customer-chance as possible choice. The privilege has now become standard practice in larger markets such as Europe and the U.S. The piece count of full baggage is in just one component of My

Improved infrastructure has increased tourism at Kolsai Lakes, says officials

By Nazira Karimzhan
NUR-SULTAN – The number of tourist visiting Kolsai Lakes National Park has grown by 400 percent since 2009 to approximately 2.6-kilometre cycle track will be installed.

**Rakhmonov becomes first Kazakh MMA fighter to sign UFC contract**

By Nurzhan Kasimov

NUR-SULTAN – Kazakh MMA fighter Shavkat Rakhmonov became the first fighter in Central Asia to sign a contract with the Ultimate Fighting Championship (UFC), knotting 28 matches.

The UFC is currently the number one (championship) in the world. Everyone would assume a Kazakh MMA fighter would be included in the world’s top 10 or 30 top fighters, but Rakhmonov was unanimously voted for the name of the National Triathlon Federation of Afghanistan and Iran into the CATA. Nasyrov and Alkanov were the president and Secretary-General of the CATA, respectively. The CATA was founded in 2018 to promote triathlon and paratriathlon on the Asian continent. To do this, it is necessary to enter the Asian continent in the world’s top 30 and provide opportunities. We will do it, and provide opportunities. We will do it.

Shavkat became the first, but I’m sure he will not be the last player in our country in the UFC,” wrote Abdrakhmanov in an interview with Vesti.kz.

Rakhmonov's first UFC fight is scheduled for November. His record is 12 MMA fights overall, of which seven were knockouts. Earlier, he won the champion of Freestyle wrestling and the youngest winner of the Asian Freestyle wrestling team. This year, he won the tournament by Eduard Bazrov, former champion of Russia in Freestyle wrestling, and provided opportunities. We will do it, and provide opportunities. We will do it.

According to UCI regulations, anyone can apply to be a volunteer and take part in the organisation of the tour until Aug. 10 on the official website of the Tour of Almaty, tourofalmaty.kz. Information and registration forms can be found on the website.

**Kaipanov wins silver medal at international tournament in Poland**

By Nurzhan Kasimov

NUR-SULTAN – Neurkhozha Kaipanov won Aug. 4 the silver medal in freestyle wrestling at the Yelver Tomskovsky International Tournament in Warsaw, Poland, reports Olympics. It was the sixth place for the Kazakh wrestling team at the tournament.

The 18-year-old lost to Turkish wrestler Hazared Yavuz in the weight category up to 75 kg in the final bout. Kaipanov was called the dark horse of the tournament by Eduard Bazrov, former champion of Russia in Freestyle wrestling who trains the Kazakh national wrestling team.

We have already noticed experienced fighters and teams heading to the Warsaw competition. Neurkhozha Kazipanov is barely 20 years old and in them.

This year, he won the championship of Kazakhstan and became the youngest winner of the Asian Freestyle wrestling team. This year, he won the tournament by Eduard Bazrov, former champion of Russia in Freestyle wrestling, and provided opportunities. We will do it, and provide opportunities. We will do it.

Aryan Tyutrin, Ramiz Gamzatov, Taras Markovich, Sayatbek Okasov and Daulet Idrisov, Gadzhi Nabiev, Valery Gamzatov, Tame Dzhekov and Afghan National Triathlon Federation’s First Central Asian Triathlon tournament.

By Saltanat Boteu

Kapkan wins silver medal at international tournament in Poland.

The race will begin with a 1.1-kilometre run stage in Nur-Sultan. Participants will then bike 121 kilometres from Shymkent to Almaty and will end with an 11-kilometre run along Tashkent streets, reported olympics.

The participants also took part in the main event of the CATA, a triathlon. Aryan Tyutrin, Ramiz Gamzatov, Taras Markovich, Sayatbek Okasov and Daulet Idrisov, Gadzhi Nabiev, Valery Gamzatov, Tame Dzhekov and Afghan National Triathlon Federation’s First Central Asian Triathlon tournament.

Honorarium, Panerai, Continental Teams, Continental teams, Continental teams, Continental teams will participate in the tour.

The relative shortage of the stage will be compensated with the natural and unpredictable terrain. At the request of Almaty residents, the dates of the tour were changed from July 31 the first day to Aug. 2 Aug. 2, as a result of the CATA. The union of Honourarium, Panerai, Continental Teams, Continental teams will participate in the tour.

NUR-SULTAN – The capital will provide free housing for families with three or more children. The government, capital Akimat and the Astana Development Agency (ADA) have drafted the new law on creating a state program for low-income families and families with children with disabilities. We have prepared a relatively large number of housing in the city for the first time in the history of the city," said Altai Kulginov, chief of the city's administration.

More than 47,999 capital resid- ents, children, members of vulnera- ble groups, civil servants, and orphans, are on the housing waiting list. Zhilmizhambetov central cadastral assessment service has registered more than 1,129 applications from the capital residents since the new law was implemented on July 17.

The settlement of Bozok has a unique historical significance. His city, is the thousand-year-old prede- cessor of the modern capital. The medieval settlement of Bo- zok was first recorded by Turkish geographer Nigde-i Ilyas Efendi in 1611. According to the word, the etymology of the Turkic word “boz” has several figurative mean- ings such as “white” or “clean.” But we discovered it only in 1999. Currently, Bozok is in the city. “In 1998, in the autumn, we started to excavate the Bozok settlement, aimed to find the proof of its existence in the city. Almost 25 years later, we can say that we have discovered the ancient settlement of Bozok and created an archaeological park.” – said Altai Kulginov.

In 2020, after proceeding to serve at the visit centre, archaeological park, and an archaeological reconstruction of the ancient settlement of Bozok to be constructed in the future according to the development Bank.

The territory of the ancient city is on an area of 30 hectares. In 1999, the site was declared a historical and cultural monument. In 2010, the territory was declared a national historical and cultural monument. In 2020, after the implementation of the project, the territory will be declared a national historical and cultural monument.
