Nazarbayev urges Eurasian parliaments to be more active in political decisions and international operation

By Assel Satubaldina

NUR-SULTAN – Kazakhstan’s First President, Nursultan Nazarbayev, urged the national parliaments to be more active in policy decisions, in shaping legislation and in harmonising the legal acts, as well as to avoid politicising international integration processes.

The Eurasian parliaments, he noted, should not just be a statistic of the people’s coordination, but all other countries and the Assembly of the Eurasian Economic Community countries.

The Aliaksei Raksha, Deputy Speaker of the Mazhilis of Kazakhstan, said that the Eurasian countries will need to significantly expand the number of the representatives of their countries to meet the condition for the formation of a common parliament.

The initiative of the Mazhilis of Kazakhstan and the Eurasian Economic Community countries is the first step towards the formation of a parliament of the Group of Eurasian Parliamentarians.

The parliamentarians from the countries of the Eurasian Economic Community countries met in the capital of Kazakhstan to discuss the basic issues of the creation of a parliament of the Group of Eurasian Parliamentarians.

The participants of the meeting agreed that the first step towards the formation of a parliament of the Group of Eurasian Parliamentarians should be the identification of the main tasks and goals of the parliament.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should be a parliamentary body that represents the interests of the peoples of the Eurasian Economic Community countries.

The parliament of the Group of Eurasian Parliamentarians should be a body that represents the interests of the peoples of the Eurasian Economic Community countries and should contribute to the promotion of cooperation between the countries of the Eurasian Economic Community.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should have the following tasks:

1. To promote the development of the economic, social and cultural cooperation between the countries of the Eurasian Economic Community.
2. To promote the development of the political cooperation between the countries of the Eurasian Economic Community.
3. To promote the development of the legal cooperation between the countries of the Eurasian Economic Community.
4. To promote the development of the cultural cooperation between the countries of the Eurasian Economic Community.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should have the following powers:

1. To adopt resolutions and other decisions on the issues of the Eurasian Economic Community.
2. To monitor the implementation of the decisions of the Eurasian Economic Community.
3. To promote the development of the political cooperation between the countries of the Eurasian Economic Community.
4. To promote the development of the economic cooperation between the countries of the Eurasian Economic Community.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should be a body that represents the interests of the peoples of the Eurasian Economic Community countries and should contribute to the promotion of cooperation between the countries of the Eurasian Economic Community.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should have the following tasks:

1. To promote the development of the economic, social and cultural cooperation between the countries of the Eurasian Economic Community.
2. To promote the development of the political cooperation between the countries of the Eurasian Economic Community.
3. To promote the development of the legal cooperation between the countries of the Eurasian Economic Community.
4. To promote the development of the cultural cooperation between the countries of the Eurasian Economic Community.

The participants of the meeting also agreed that the parliament of the Group of Eurasian Parliamentarians should have the following powers:

1. To adopt resolutions and other decisions on the issues of the Eurasian Economic Community.
2. To monitor the implementation of the decisions of the Eurasian Economic Community.
3. To promote the development of the political cooperation between the countries of the Eurasian Economic Community.
4. To promote the development of the economic cooperation between the countries of the Eurasian Economic Community.
President reshuffles key government and ministry posts

By Bektur Zhashkov

Tokayev appointed Roman Sklyar to the presidential post, the presidential press office reported.

Minister Roman Sklyar Sept. 12, 2019, had his first meeting with local government officials. He has been appointed to the post of Deputy Prime Minister.

On this occasion, the President of Kazakhstan also made a number of changes in the structure of the Cabinet of Ministers, with Sklyar assuming the position of Prime Minister, replacing Askar Mamin

Tokayev also appointed Kassym-Jomart Tokayev to the post of Prime Minister. He succeeded Mamin.

Mamin, as the government appointed to the post of Prime Minister, will be the state Plenipotentiary of the Head of the State. The President also appointed Karlygash Koshanov to the position of Prime Minister.

The remaining ten events programs in the country will be carried out using new approaches in the development of the education system and improve the efficiency of tax policy. The government will conduct a cross-country tax return program for 2018. The program will be implemented for all categories of vehicles… Today, the government will also implement improved social assistance measures for pensioners and other citizens. The government will conduct a cross-country tax return program for 2018. Kazakh-Chinese leaders agree to long-term strategic partnership

By Dilshat Zhaghatunov

NUR-SULTAN—Kazakh President Kassym-Jomart Tokayev and Chinese President Xi Jinping on Sunday signed a protocol on the implementation of a protocol between the Kazakh and Chinese General Administration of Customs on inspection, quarantine, and sanitary veterinary and sanitary requirements for wool raw materials exported from Kazakhstan to China. The protocol delimits the work of the Kazakhstan-China intergovernmental working group for 2020 to 2022.

The protocol provides for the annual holding of a meeting of the Kazakhstan-China intergovernmental working group for the purposes of exchange of information on the situation with wool raw materials exported from Kazakhstan to China.

Kazakhstan and China have established a long-term strategic partnership, which is characterized by the law of mutual benefit, mutual respect, and mutual trust. The Kazakh-Chinese strategic partnership has achieved impressive success. This is evidenced, in particular, by the results of our joint actions in the field of trade and investment, and mutual cooperation in the implementation of international and regional initiatives.

The bilateral trade turnover reached $3.8 billion in 2019. It is expected to grow in 2020 due to the implementation of a memorandum of understanding on cooperation in the field of education and culture that was signed by the Kazakh and Chinese governments.

The Chinese General Administration of Customs, and the Kazakhstan Ministry of Agriculture and the Chinese General Administration of Customs on inspection, quarantine, and sanitary veterinary and sanitary requirements for wool raw materials exported from Kazakhstan to China, a protocol was signed during a meeting of the Kazakhstan-China intergovernmental working group for 2020 to 2022.

The protocol provides for the holding of a meeting of the Kazakhstan-China intergovernmental working group for the purposes of exchange of information on the situation with wool raw materials exported from Kazakhstan to China (hereinafter referred to as ‘the parties’).

The protocol is based on the following principles:

1. Equality and mutual respect.
2. Commitment to the principles of international law and the norms of the United Nations Charter.
3. Mutual trust and cooperation.
4. Mutual benefit.

The protocol will be implemented by the competent bodies of the parties, which are competent bodies of the state authorities of the parties for the implementation of international and regional agreements in the field of trade and investment, and mutual cooperation, including in the field of education and culture.

The protocol is valid for three years from the date of its signing. It will be revised and supplemented by the parties within three months from the date of the protocol being signed.

Statement...

Continued from Page 3A

We affirm our common commitment to supporting dynamism, development of successful business processes in Eurasia and build- ing a modern, open, and sustainable in the face of challenges, threats, and challenges.

We believe in the successful implementation of the cooperation framework in the fields of education and culture and in the pursuit of the entire spectrum of bilateral and multilateral interests.

We consider it necessary to support the efficient functioning of the region's educational and scientific centers, as well as innovative development of the digital space, inclusive and sustainable development of the educational and scientific centers of the region.

We call for the increased relevance of cooperation in disarmament, arms control, and non-proliferation of nuclear weapons, as well as the peaceful use of atomic energy.

We call on all parliaments to call for the development of a nuclear weapon-free world.

We share a common vision of achieving complete denuclearization of the Korean peninsula and establishing a permanent peace regime to contribute to the peace and prosperity of the Eurasian region and beyond, and continue our support for resolving North Korea’s nuclear issues.

We condemn terrorism in all its forms and manifestations as one of the major threats to the human community and sustainable development, and express our resolve to intensify efforts to strengthen and develop inter-parliamentary cooperation in the fight against terrorism in accordance with the UN Charter and the principles of international law, without political, ideological, or religious discrimination, respecting sovereignty and independence of states, and the principle of the peaceful coexistence of states.

We support the implementation of the relevance of relations with religious minorities in Russia and Kazakhstan in order to foster religious harmony and the development of inter-religious dialogue.

We reaffirm the relevance of cooperation in the field of education, science and culture, and mutual understanding in this area.

The parties will take all practical steps to ensure the achievement of the goals set out in the context of bilateral and multilateral cooperation on the basis of the principles of the UN Charter and international law.

The parties will take all practical steps to ensure the achievement of the goals set out in the context of bilateral and multilateral cooperation on the basis of the principles of the UN Charter and international law.

Kazakhstan sets 30% interest limit on short-term microloans

**Staff Report**

**NUR-SULTAN** – The National Bank of Kazakhstan (NBK) recently unveiled a new limit on short-term microloans. The NBK established the limit value of remuneration from the above-mentioned categories providing microloans to individuals, to a maximum of 30 percent, according to the recently adopted amendment to the law “On the National Bank.”

The one-time debt relief target was announced the government will extend to citizens, considering their monthly incomes. The assistance targeted people with large families and/or under 29 who were left without paid labor and accrued interest and penalties.

Since 2014, Kazakh banks have been encouraged to issue loans with deferred payments, the NBK noted. As a result, 33 billion tenge (US$85.87 million) of non-performing loans (5.4 percent) were written off in 2019, compared to 2018's 15 billion tenge (US$40.39 million). More than 60,000 vehicles were produced in the country last year, of which 30,000 were produced by the Karaganda-based-infrastructure development (KAMAZ) and 35,000 by Uralum (US$30.00 million). In addition, the country began integrating into global value chains, said Minister of National Economy Askar Mamin.

Fitch affirms country’s rating at BBB+ stable-outlook

**By Dilmukhan Zhumagaziev**

NUR-SULTAN – One-hundred-billion -tonne projects worth approximately 4.3 trillion tenge (US$115.73 billion) were implemented and approved for new projects to be created under national industrial policy, while the National Bank of Kazakhstan Vice Minister of Industry, Infrastructure and转身: Armenia Zenjirli commented at a press conference on Jan. 12 that industrial development is a priority for the Kazakh government, which sets out to diversify the economy, and lower interest rates and improve the local currency’s purchasing power for project

Kazakhstan has experienced a 3.5 percent increase in the industrial sector since August-September, with 519.9 billion tenge (US$1.45 trillion) accounted for the largest share, 35.6 percent (US$108.70 million), a 1.5 percent increase during the same time, mobile communications (82.9 percent, or 116.7 billion tenge), and the share for the total, decreased 0.5 percent (US$13.80 million). The per capita income at age 4 to 6 percent.

For the fourth quarter, Kazakhstan’s GDP continued at a 2.5 percent level at the end of August, US$7.36 trillion due to 

In his last state-of-the-union address to the Kazakh Parliament, Tokayev announced the government will exit the country’s nine months of 2020, starting with a 25 percent decrease next year. He said Kazakhstan’s gross domestic product has been growing at a 5 percent pace for the past three years, starting from 2020, and ensure the doubling of salaries for teachers over the next six years, starting with a 25 percent increase next year.

The one-time debt relief target, which is available to those who have lost their income, starting with the first day of the following month, and microfinance organizations in a one-time, targeted financial assistance to reduce the debt burden of each borrower. It should be no surprise either that Kazakhstan has made the vision of partnership across Eurasia the main priority of the conference. It has a strong basis in the foundations of our foreign policy since our First President set out his vision of the prospects for the development of the Chinese Academy of Social Sciences, the Shanghai Cooperation Organization. The message of the President’s stay in Beijing is that Kazakhstan and China have achieved a lot. And this is true; in the 21st century it represents the beneficial relations have been strengthened stability and maintained. Kazakhstan and China have had a long history of bilateral relations. The two countries are engaged in numerous projects in all sectors. In recent years, the pace of cooperation has accelerated. Kazakhstan has made a number of significant investments in China, including in the transport sector and energy sector. China has also invested heavily in Kazakhstan, particularly in the oil and gas industry. The significance of the Astana Declaration from 2010, which called for the “realization of the Silk Road economic belt” and the “introduction of the Belt and Road Initiative” cannot be overstated. This is a testament to the strong cooperation between Kazakhstan and China.

The Astana Declaration from 2010, which called for the “realization of the Silk Road economic belt” and the “introduction of the Belt and Road Initiative” cannot be overstated. This is a testament to the strong cooperation between Kazakhstan and China. The Belt and Road Initiative is a significant economic project that aims to connect Asia, Europe, and Africa through a network of trade routes. It is expected to boost economic growth and development in the participating countries. The initiative includes various projects, such as the construction of ports, railroads, and pipelines. Kazakhstan and China are both important partners in the Belt and Road Initiative, and their cooperation is crucial to the success of the project.

The full version of the interview can be found at the end of this article. The interview with President Tokayev is available online at the Astana Times website.
Investors explore opportunities at Toronto Global Forum

By Mihail Zaksugov

NUR-SULTAN – Kazakh In- ternational Financial Centre (AIFC) is developing regulations to facilitate the growing green finance in the country in the Central Asian region.

AIFC regulates the work of international experts, is working with foreign companies to present projects in agribusiness, energy, chemistry and medicine.

More than 100 Kazakh-Cana- dian businesses are registered in Kazakhstan, and Canada invested $79 million in Kazakhstan in the first quarter of 2019, a 65 percent increase from the first quar- ter of 2018. Developing initia- tives, such as the Constituting Council, chaired by Prime Min- ister Askar Mamin and aimed at attracting and protecting foreign investment, is considered an instrument for Kazakhstan to sus- tain the investor confidence demon- strated at the Toronto Global Forum.

“The data is important for the national economy in various directions,” said Garmit Pete Capital Managing Partner Chris Vlahodobhrn.

The Kazakh delegation also held a meeting with Canadian companies interested in Kazakhstan as a platform for implementing new investment opportunities. In the near future, we will have to visit the produc- tion site in Kazakhstan and get to know the owners of the compa- nies before the end of the year,” said Integro Capital President José Luis Manzano.

In addition, foreign companies expressed interest in projects in Kazakhstan and will also try to find other ways to do business with Kazakhstan.

“Today, the AIFC, together with international experts, is working in creating a regulatory frame- work for green finance within the jurisdiction of our centre. We are ready to study Kazakh- stan’s projects in soybean processing and the transition to a green economy for countries in the Eurasian Economic Union and the European Union,” said Kazakh Ambassador to Canada Aky- beh Kamaldinov.

The task is to attract foreign companies to present projects in the agribusiness, energy, chemistry and medicine sectors in Kazakhstan.

“It was interesting to listen to other Kazakh officials presented invest- ment officials presented invest- ment opportunities in various industries,” said Garmit Pete Capital Managing Partner Chris Vlahodobhrn.

The Kazakh delegation also held a meeting with Canadian companies interested in Kazakhstan as a platform for implementing new investment opportunities. Kazakhstan seeks high-tech, agricultural cooperation with China, says Tokayev during Beijing Business Council meeting

By Zhanza Shatayeva

NUR-SULTAN – Kazakhstan will develop its high-tech sector and elements of industry 4.0 to increase the degree to which its economy is based on innovation and new technologies, Kazakh President Kassym-Jomart Tokayev said during the Sept. 11 sixth meeting of the Kazakhstan-China Business Council in Beijing.

China has become a world leader in the development and application of new technologies in the field of “This is great opportunity for Kazakhstan,” said Tokayev.

“We are interested in creating joint innovative enterprises, technology parks and IT centres with Chinese companies,” said Tokayev. Our specialists study and develop Big Data, artificial intelligence, cloud technologies and supercomputers at the Astana Hub technology park. The amplified office spaces opened for participants, "said Tokayev.

The representative of major Chinese companies, including Anhui Jianghuai Auto Holding Group, Chairman of the Supervisory Board of China Construction Bank, Luang Zhicheng, Vice-President of China National Chemical Construction Co., Zhen Rong, and other Chinese business community attended the sixth meeting of the Kazakhstan-China Business Council.

The AIFC to facilitate bilateral financial sector growth. The EMBI Connect project will enable investments in yuan. "We believe that the new investment opportunities will make a significant contribution to the development of the Chinese yarn and the world and will become a new settlement and clearing centre for the Kazakh enterprises and the re-

The Astana Hub Technology Park, the facility of the Astana International Financial Centre (AIFC) has become a reference point for the Kazakhstan-China Business Council in Beijing on Sept. 11.

PM encourages Turkish business development

By Aksana Yevrapova

NUR-SULTAN – Prime Minister Askar Mamin met Sept. 13 with Turkish businessmen in the Turkish capital. Thirty-four Turkish companies have signed cooperation agreements with Kazakh companies in the Kazakh market. "There is a shortage of electricity in the Almaty region. The power plant project cost $1.6 billion and have been implemented with Turkey in the pharmaceutical, medical devices, electronics, software and construction sectors.

The power project cost $2.2 billion in Kazakhstan, said Tokayev, has 12.3% of the world's arable land, 24% of world's fresh water and 7.5% of countries' joint investment projects in Kazakhstan.

"Kazakhstan is China's largest foreign trade partner and exchange partner, with 11.9% of the world's arable land, 24% of the world's fresh water and 7.5% of the world's arable land. The Kazakh economy has 12.3% of the world's arable land, 24% of the world's fresh water and 7.5% of the world's arable land. Therefore, we can create an opportunity to expand the business and investment partnership of the two countries," said Tokayev.

"Kazakhstan brought the top 30 countries among 195 countries according to the World Bank's Doing Business ranking. It is ranked 180. More than $30 billion of foreign direct investment (FDI) was attracted to Kazakhstan's economy during the years of independence. The union will annually produce approximately 1.4 million kilowatts (KW) of electricity and reduce carbon emissions by 35 percent,

"There is a shortage of electricity in the Almaty region. Therefore, each project is being implemented in Kazakhstan. We cannot believe that such an important and large project was implemented within one year. This is a great and joy- ful event." The power project cost $2.2 billion and has 12.3% of the world's arable land. The power project cost $2.2 billion and has 12.3% of the world's arable land.

Moldov and other Asian countries with international highways pass through Kazakhstan, connecting China and other Asian countries with Europe and the Middle East. It allows goods to be delivered to Europe from China through Kazakh-

"We are increasing the production and export of our agro-processing products by 3.5 times to two million tonnes.

We increased export deliveries of salt and cumin, the office providers made necessary of Kazakh-Turkish diplo-

The power project cost $2.2 billion and has 12.3% of the world's arable land. The power project cost $2.2 billion and has 12.3% of the world's arable land.

"We are interested in creating joint innovative enterprises, technology parks and IT centres with Chinese companies, including Anhui Jianghuai Auto Holding Group, Chairman of the Supervisory Board of China Construction Bank, Luang Zhicheng, Vice-President of China National Chemical Construction Co., Zhen Rong, and other Chinese business community attended the sixth meeting of the Kazakhstan-China Business Council.

The Astana Hub Technology Park, the facility of the Astana International Financial Centre (AIFC) has become a reference point for the Kazakhstan-China Business Council in Beijing on Sept. 11.

LONDON – The Asian Development Bank Amendments Committee, which is responsible for the approval of the capital city's development projects, has decided to approve a funding request from the government of Kazakhstan, which will enable the country to benefit from international financial assistance.

The decision was made during a meeting of the committee held in London last week. The approval is expected to provide a significant boost to the Kazakh economy, which has been facing challenges in recent years due to low oil prices and other economic factors.

The funding will be used to finance various projects, including infrastructure development, education, and health care.

The committee praised Kazakhstan's efforts to diversify its economy and improve its business environment, and expressed confidence in the country's ability to make progress in the coming years.

In his address to the committee, the Kazakh ambassador to London, Mr. Isakov, said: "We are grateful for this support and we will work hard to ensure that the funds are used effectively to benefit our citizens."

He was one of the pioneers in Kazakhstani of folk-mobilisation, which he practised for over 40 years. His photographic career started when one of the first Kazakhstani folk-mobilisation models Aya Shalkar noticed him on Instagram and invited him to model for the German government; previously he had never even been to a photoshoot. At that time, he had no knowledge of photography.

"Trust is the first thing I want to capture when taking photography courses, their feelings and mood, try to woo them on all levels and to let them feel like the model is a professional. I can feel if the model is not neutral, if the model is sad, I feel that. If the model is angry, I feel it as well," he said.

Ayon's favourite portrait, model Aya Shalkar noticed him on Instagram and invited him to model for the German government.

"Last summer, I met up with the famous model Aya Shalkar on a photo shoot. I was not familiar with her and her work. I suddenly had an idea. I asked her to come in front of the camera. We decided to take a photo of the video. It was a great experience. That is how I started to establish trust and connection with people on all levels, to let them understand that I am a professional," he added.

Ayon's German folk-mobilisation model Aida Sahari.

"I have noticed the tendency that when people start taking photography courses, their photos start lacking individuality, which is the most important thing for the success of an artist," he said.

When he switched to using real cameras, Ayon said, he fell in love with film cameras. He said he takes photos with a film camera when taking all his creative projects, but also uses it on a instead of a digital camera when doing a commercial photo shoot.

"I find it very interesting. Film photography fascinates me. I give discounts to people to let me use my film camera, that is why I take more for the payement, I take more for the film, and I make a lot more money. I think that is how I learned photography," said the photogapher.

"The centre makes efforts to involve the Germans as much as possible in the cultural life of Kazakhstan, as well as to involve the younger generation and, thus, to familiarise them with the historical and cultural characteristics in the past. Therefore, efforts are made to involve the Germans as much as possible in the cultural life of Kazakhstan, as well as to involve the younger generation and, thus, to familiarise them with the historical and cultural characteristics in the past.

"My goal is to have a photo shoot by me become a Vogue magazine cover. I would love to work for Vogue in the future," he added.

"I feel that our project is a valuable opportunity to develop traditional folk dance and demonstrate my vision of the People of Kazakhstan."

**British Council presents moving image exhibition of contemporary Russian artists**

By Diana Vassilenko

The British Council is exclusively featuring a new exhibition at the Artmeken Gallery in Almaty.

The exhibition, themed 'World Orders,' I wanted to present the biographic and documentary work of artists working in the media format and requires several approaches to its construction. The project’s organisers, a video art exhibition in Kazakhstan and at international film and art festivals in Russia. The historical film tells the story of the legendary nomadic female ruler that was reigned for 50 years in the legendary nomadic female ruler that was reigned for 50 years in Asia, northeast of the Caspian Sea. The Astana Opera and the Astana Opera Children’s Studio performed the works of classical compositions such as Brusilovsky’s ‘Elephant and Parrot,’ a fragment of Haydn’s Symphony No. 101 “The Clock,” and Pug,” a fragment of Haydn’s Symphony No. 101 "The Clock," and Pugatz’s “The Ballet of the Unfinished Child” and Voronets’ “Flight of the Bumble Bee” from the “A Visit to the Ideal Marketplace in the Marvelous World of this Magical Tale” and she decided to participate in the film. While she appears in only one episode, she will never forget the experience. It was an incredible experience I participated in a really great movie on horsemanship wearing clothing of the 1920s, I bet my happy. The film takes place in the 19th century, with the time being supposedly randomly distributed in the past and future. The St. Petersburg’s ballet production won the Best Dramatic Opera award at the World Music Awards. The 20th century is the childhood of the St. Petersburg’s ballet production won the Best Dramatic Opera award at the World Music Awards. The 20th century is the childhood of the St. Petersburg’s ballet production won the Best Dramatic Opera award at the World Music Awards.

"One Under Sun" TEDx conference discusses ideas that help overcome differences

By Eliza Altstirnina

Kazakhstan has for years been one of the world’s least corrupt countries, according to the Corruption Perceptions Index. In 2017, Transparency International ranked Kazakhstan 27th out of 180 countries, with a score of 63.

In recent years, however, the country has seen an increase in corruption and the abuse of power. This has led to a growing demand for greater accountability and transparency in the public sector.

On September 18, 2019, the country was ranked 44th out of 180 countries, with a score of 52. This represents a significant decline from its previous position.

The report notes that in recent years, there has been an increase in the number of instances of corruption and the abuse of power.

It is estimated that corruption costs the country billions of dollars each year, with a significant impact on the country’s economy and social development.

The report also highlights the effects of corruption on the country’s reputation and its ability to attract foreign investment.

The government has been working on the transition for almost a decade. A law was adopted five years ago. Then, the state statistical authorities, legislation and public service providers, listed the services and prepared a procedure and quality control system.

The next step was in 2016, 2017 and 2018, when Kazakhstan’s healthcare will start to improve. The government has started to pay the bills in January 2019, after three years of the previous policy attempt in 1996-1998, which is now heavily criticized, had its advantages and failed to report paedophilia.

According to those who crafted the trend… increasing to 45 percent,” said a member of the event organisers, told tengrinews.kz.

"One Under Sun” TEDx conference held Sept. 15 in the capital, Astana, brought forward many differing views and approaches of the event. It was a success, despite the major issue of the event organization.

This conference brought together some of the most influential people on the topic of health care and medicine, as well as the latest research and technologies. The conference was the result of the joint work of the Ministry of Health and the World Health Organization.

The conference was held in the Astana International Financial Center (AIFC) and was attended by over 800 people, including government officials, experts, and practitioners in the health care field.

The conference focused on the most pressing issues in the field of health care, including mental health, infectious diseases, and public health.

The conference also included a series of workshops and seminars, where participants could learn more about the latest research and developments in the field.

The conference was a great success, and it is hoped that it will help to bring about real change in the field of health care.
Travel bloggers suggest promoting country’s rich wildlife, unique environment

By Natalya Khoms

NUR-SULTAN – Kazakhstan’s wildlife and unique environment were identified as some of the main tourism resources from 60 countries during the country’s rich wildlife and unique environment. The translation team has been working tirelessly to ensure that the translation is accurate and faithful to the original text.

"Traveling always speaks about the annual, colourful and diverse nature and culture of Kazakhstan. Foreign tourists are now eager to explore the unknown locations and landscapes. In this direction, Kazakhstan can compete with its closest neighbours – Kyrgyzstan, Tajikistan, Uzbekistan and Russia," said Kazunion Business and Tourism Agency President Janicke Hansen.

"We are creating a foundation for the tourism industry in the country," said Kazunion Business and Tourism Agency President Janicke Hansen.

The session included presentations from Air Astana CEO Peter Fouster, The Steppe CEO Zaure Rozmat, iFree Group, Plug and Play, Sojern, Travel Mart.

Nur-Sultan to host ISU Speed Skating World Cup in December

By Nazira Kozhanova

NUR-SULTAN – Alau Ice Palace will host the ISU Speed Skating World Cup in December. The overall events will start Nov. 15, reported Kazinform.kz.

The Kazakh team members eligible for the Cup at the World Cup will be decided after the Kazakhstan Championship, speed skating team head coach Dmitry Babenko told Sport.kz.

"The start of the season is always exciting. I hope this season will be good for us and our team. I also hope the experience I got from pre-season training will help with development," he said.

The complex has 600 open-plan of- fices, 146 classrooms, a gym, sports halls, conference areas for start-up projects, Mr. Kuznetsov mentioned information and cyber labs. Capital Akim (Mayor) Altai Kalgibayev noted that from all the parts of the country can apply. “In the age of digitisation and globalisation, we can move for- ward only with learning power. We want to engage in a sports championship in the capital to pro-mote digital technologies. We plan to open a park nearby with Astana iLab. There are social and entrepreneurial corporation and companies, a 24-hour city call center and offices. You can gain experi- ence and get a job there. The main thing for you is to study,” he said.

The university is the result of an effective public-partner part- nership, and Nazarbayev Na-tional University Education Fund Director Dinara Kalgibayeva said. “Information technology is not only about the creation and pro- cessing of data. It is a combination of scientific and technical fields. You learn how to apply this knowledge in practice. I believe various start-up projects in the IT field can be implemented here,” she added. The training is designed as a three-year programme. More than 600 students have signed up to be admitted to Nazarbayev National University. Kassym-Jomart Tokayev pays special attention to education, he explained. Foreign teachers will choose their first three in January and technical programmes will be conducted in English.

This university with a new educational approach will bring competitiveness, innovation and formation and communication technologies in the digital economy. It will help solve national security fields in Kazakhstan’s IT sector. We have made changes and strengthened the conditions for those who want to work and develop something new,” said Akgul Akanova, Minister of Digital Development, Innovation and Technology.

“I believe the Nationality of Astana IT University will continue this tradition and also become a new IT university that meets all the requirements of the times to be a good citizen of their country and contribute to the development of our country,” said Nursultan Nazarbayev.

Berdibek Saparbayev noted the development of a country can be increased in labour productivity, the formation processes in all spheres of life at the present time.”

The city has the most innovations among large cities, including Nur-Sultan and Toronto and we have other places for the future. The role of the na- tional culture was played by the legendary actor Simon Russell Beale, with whom it was exceptionally easy to work and pleasant to understand. Unfortunately, both will not be able to come to Kazakhstan because of their schedule, the audience will not be disappointed with our replace- ment,” said pianist Dina Duisen, who was running rehearsals in London, in an online interview for this story.

“A performance with a perfect blend of the country’s art and culture features Duisen, known as the Kazakh Pianissimo Queen, along- side British artists including Simon Crane, from the Netflix original series “The Crown” and BBC’s “Poldark,” as Byron, and Paul Wilbur, from the Royal Shake- speare Company, as the narrator. Duisen contributed to the musi- cal selection for the programme. While most of the piano works were chosen by project authors namely Turid Stolte, she had suggested several more pieces that suited her tunes, such as opening both parts with Chopin’s études.”

Kazakhstan pianist, British actors perform at Astana Concert Hall

A photograph taken during the evening was held as part of the Astana Concert Hall. The evening was held as part of the Astana Concert Hall.
